A Healthy Place to Eat!

Don't think of us as the little café in Belchertown anymore. . . Think of us as the next best thing to your own personal chef! All meals are made from scratch, keeping in mind the values of good nutrition. Organic fruits and vegetables purchased from local farmers are carefully prepared to lock vitamins. Alternative sweeteners may be used to substitute sugar such as honey, syrup, or molasses. Even with our coffee, we go so much further to ensure that it is the absolute best in taste and is good for the environment. With "fair trade," even the worker who picks the bean benefits. The fact that we purchase our coffee in small amounts, means that you can be sure it is the freshest and not sitting for ages on a shelf like large chain restaurants buying in bulk.
